

# SOULART

Personalized, insightful art

If thinking changed our lives, we would be living the lives of our dreams!

**Intuitive SoulArt provides you with:**

- non-verbal insight into yourself, your issue, relationship or circumstance
- information and solutions that speak to your unconscious mind, which is where our most stubborn problems linger
- feedback about progress over time (when done in a series)

**What people are saying about SoulArt:**

I am enjoying my drawing so much, especially the interpretation... Without really knowing me that well you were able to call my attention to areas I need to work on and give me hope that difficult parts are changeable. I take such pleasure in the colors, especially the creative part that reflected the colors of my childhood wallpaper. What a delightful and welcome surprise! KA Bellevue

Oceana's drawings and interpretations have given me useful and important information that has allowed me to remain clear about my path and what I need to do to fulfill my higher purpose. SH Tacoma, WA

**Investment:** Sliding scale \$50-85, which includes a written summary. You may request SoulArt for a particular aspect of your life or have Oceana draw you. SoulArt Consultations are available for an additional fee. Expedited service, meaning your drawing and summary are emailed, is an additional \$25. Please inquire about availability.

**What is SoulArt?** *SoulArt is a unique way to learn about yourself, your situation or relationship through intuitive drawings that provide non-verbal insight. It was developed as part of Oceana's process of working through her cancer diagnosis, treatment and healing. The drawings helped her to clarify and monitor her health – physical, mental, emotional and spiritual. Gradually she began doing art for others. This led to increasing requests for drawings and SoulArt was born! Oceana has extensive training in the healing arts. She is delighted to offer this new, non-verbal, non-linear way of encouraging insight, change and ultimately transformation.
