On-going!

Chords, Strumming, Basic Rhythm Patterns, Fingerstyle and more!

- ❑ You do NOT have to learn to read music to play guitar!
- ❑ Guitar is extremely versatile. Once you know the basics, you can learn any style you choose from classical to flamenco to rock to folk to jazz.
- ❑ Learn manageable pieces. Put the pieces together and you are playing!
- ❑ This is a supportive group.
- ❑ Guitar playing can be framed as a spiritual practice if you wish

This guitar circle is fun and enjoyable. We look forward to it each week. Please see the events page of my web site to read student comments about Strum Your Bliss. SYB is appropriate for beginning and intermediate level players.
